

CAREER FAIR FOR O&G TALENTS

TALENTS ARE ASSETS! YET, THEY ARE AS SCARCE AS OIL IN THE OIL FIELDS!

Meet recruiters from top O&G companies at the SFCF:

DAYS/DATE:

Saturday and Sunday, Jan 26 and 27, 2013

TIME:

9am to 5pm

VENUE:

Hall 3, MidValley Convention Centre, Kuala Lumpur

COMPANIES RECRUITING?

Malaysian and international O&G companies involved directly or indirectly in the O&G business. Among the participating companies are:

Universiti Teknologi Petronas and TalentCorp will jointly organise the oil and gas (O&G) sector Focused Career Fair (SFCF) targeted at the O&G National Key Economic Areas to search for talents.

WHO ARE THE TARGET TALENTS?

- University students (year one to year four)
- Fresh graduates
- Young professionals (one to three years experience)

SPECIALISATION/TRAINING

The O&G industry needs talents from different disciplines. With the right attitude and aptitude, you can be hired!

- Engineering
- Geography/Geophysics
- Business/Accounting/Finance
- ICT
- Economics/Statistics
- Environmental science

WHY PARTICIPATE? THERE ARE MANY REASONS.

- Find out about yourself
- Get employed or secure an internship
- Contribute to the nation's GDP
- Join the high income and high value-added O&G sector

OIL & GAS SECTOR VALUE CHAIN

VALUE CHAIN	UPSTREAM					DOWNSTREAM			
	Exploration		Extraction		Production	Refinement	Distribution	Marketing	Trading
SUMMARY	EXPLORATION Licensed by host gov. who agrees to lease acreage if discovery made.	DEVELOPMENT Explore the leased block for finding reserves of Oil and Gas deposits.	PRODUCTION Lifting the oil and gas depletes the reservoir & produces crude of a specific grade for the area.	TRANSPORT	STORAGE Crude oil and natural gas is transported to arrive at a given location at a certain date. (Trading starts at this point.)	REFINING Refineries process crude feedstock into a variety of products such as heating oil, asphalt, diesel, petrol etc.	DISTRIBUTION	TRADING & MARKETING Refined product is distributed for retail, trading or for processing by petrochemical plant.
